EXPERIENCE

NFTING. — *Frontend Developer (Junior)*
2022 - January 2024

- Identified and optimized web application performance which improved the user experience and web application speed.
- I built the official website of the company from scratch with the webflow tool.
- Leveraged Redux and axios to fetch API data and dynamically update website content, resulting in a 50% increase in user engagement
- Proactively identified strategic areas of opportunity and high business impact for team and product improvements.
- Mentored other interns by conducting technical workshops and knowledge-sharing sessions, leading to team skill development and career advancement.

NFTING. — *Frontend Developer (Internship)*
2022 - January 2024

- Implemented the Languages option feature, so users of the marketplace could be well guided when navigating the user-interface which increased the number of users to 20% of the initial recorded.
- Using Javascript framework React.js and some of it's libraries, I was able to create a DEMO marketplace from scratch.

StayBusy. — *Frontend Developer (Freelance)*
Mar 2020 - Jan 2021

ShareQube. — *Frontend Developer (Internship)*
Jan 2022 - Mar 2020

- Proactively completed projects for several clients which increased the company's revenue by 5%

- Engaged in coding sessions and understanding more on how to work with git, github and react applications.
